

EDUCATIONAL USE PROPOSAL

Chet Holifield Federal Building

Summary

We are a California Public Benefit Corporation seeking to acquire the Chet Holifield Federal Building for use as a global educational headquarters.

We propose a public benefit conveyance or negotiated below-market sale. We will preserve the structure, invest significant private capital in renovation, and operate the facility as an educational institution serving learners worldwide.

The Opportunity for GSA

The Chet Holifield Federal Building has been through three disposition attempts:

Attempt	Year	Outcome
First auction	2023	Zero bids (preservation requirement)
Second auction	2024	Winning bid cancelled after legal dispute
Award to runner-up	2025	Cancelled; new auction announced

The building sits vacant. Federal tenants have relocated. The property generates no revenue and accumulates carrying costs. Each failed attempt creates more uncertainty.

We offer certainty.

Our Proposal

We are flexible on transaction structure:

Option A: Public Benefit Conveyance — Transfer property to qualified educational entity at no cost. We establish 501(c)(3) or partner with existing nonprofit. Deed restrictions ensure permanent educational use.

Option B: Negotiated Below-Market Sale — Purchase at discount to market in exchange for structural preservation commitment, educational use restriction, and community benefit requirements.

Option C: Hybrid — Reduced price with public benefit terms. Flexible structure based on GSA's requirements.

Use Plan

Primary Use: Educational Headquarters

The building will serve as the global headquarters for an educational organization delivering free daily lessons to learners worldwide. Functions include content production, technology operations, broadcast facilities, and administrative offices.

Secondary Use: Public Access

Ground floor visitor center, educational exhibits, school field trip destination, observatory access.

Employment: 150-250 permanent positions

Structure Preservation

We will preserve the building's structural form.

Element	Commitment
Exterior silhouette	Preserved — stepped pyramid form retained
Structural system	Preserved — concrete frame maintained
Terrace configuration	Preserved — 13 levels retained
Interior	Modified — updated for modern use
Systems	Replaced — HVAC, electrical, fire safety modernized

The building will not be demolished. The Pereira design will remain recognizable.

Financial Capacity

We are prepared to invest substantial private capital in this project.

Category	Investment
Building remediation & systems	\$150-230M
Interior renovation	\$70-120M
Technology infrastructure	\$50-80M
Site improvements	\$10-20M
Total capital investment	\$280-450M

Funding sources: Philanthropic foundations, corporate partnerships, impact investors. We will provide evidence of committed capital as transaction progresses.

Community Benefit

Benefit	Description
Educational access	Free content available globally
School programs	Field trips for local K-12 schools
Local employment	150-250 permanent jobs
Tax base	Property enters local tax rolls
Preservation	Historic structure saved from demolition

Timeline

Milestone	Target
Letter of interest	Immediate

Structure finalization	60 days
Due diligence	90 days
Funding commitments	120 days
Transaction close	180 days
Facility operational	3 years from close

Request

We request a meeting with GSA Region 9 Property Disposal to discuss:

- 1. Current disposition status and process
- 2. Feasibility of public benefit conveyance for educational use
- 3. Alternative transaction structures
- 4. Required documentation and next steps
